Atlanta VA Health Care System

## **Innovative Brain Assessment Study**

Research Investigator: A.M. Barrett, M.D.

**We are exploring cognitive assessment designs.**

Participants will have up to 2 testing sessions, lasting up to 2 hours per session.

Are you between the ages of 21-90?

If so, you may be eligible to participate. Participation in research is voluntary and your willingness to participate will not affect your rights or benefits as a Veteran.

If you would like more information concerning this research study, entitled  
"Standardization of Innovative Brain Assessment"

**please contact A.M. Barrett, MD at (404)321-6111 x202776  
(dial "1" before the extension)**
