

Seeking Stroke Patients

Prism Adaptation Therapy (PAT) for Right Brain Stroke Rehabilitation

Dr. Michael Dattilo, Principal Investigator, is conducting a research study (IRB1724930) to better diagnose spatial neglect in stroke survivors and identify patients who may benefit from Prism Adaptation Therapy.

Participants will receive:

- Medical screening
- Behavioral testing/surveys
- Prism therapy (if eligible)
- Compensation for time and travel

Are you eligible?

- 18 years of age and over 0
- 0- 4 months post stroke
- Able to sit up and see out of both eyes
